Maximum Marks	4 Marks

Empathy Map

Create an empathy map to understand your customer/user from four perspectives - what they Say, Think, Do, and Feel - in relation to the problem your project addresses. This helps the team I build a customer-centric solution.

SAYS • I need flood alerts • I want accurate predictions • I need timely warnings	THINKS • I hope I receive accurate values • I should be warned before flooding starts • I want to keep my family and property safe
PERSONA NAME (Role / User Type)	
DOES • check weather updates regularly • Follows floods alerts and warnings • Feels confident with early warnings	FEELS • Feels worried about floods • Wants to feel safe and secure • Feels confident with early warnings
