

Project Demo Planning

Date	11 July 2026
Team ID	XXXXXX
Project Name	Rising Waters – Flood Prediction System
Maximum Marks	1 Mark

Project Demo Planning:

A well-structured demo plan ensures that the team presents the project effectively, covering all key aspects in a clear and organized manner. This document outlines the plan for demonstrating the project, including the flow of the demo, key features to highlight, and responsibilities of each team member.

S.No	Demo Section	Description	Duration (mins)	Responsible Member
1	Project Introduction	Explain the flood prediction problem and project objectives	2	Derangula Swathi
2	Dataset Overview	Explain the dataset and preprocessing step	2	Garladinna nandu
3	Model training	Explain the machine learning model and training process	2	Araveti Divet Kumar
4	Live Prediction	Show flood prediction using sample input	2	Garladinna Nandu
5	Results & Accuracy	Display prediction results and model performance	2	Derangula swathi (team Lead)
6	Conclusion & Future Scope	Summarize the project and future improvements	2	Y Varshith

Demo Flow Summary:

Step	Activity	Notes
1	Introduction & Problem Statement	Explain the need for flood prediction
2	Solution Overview	Explain datasets , preprocessing and ml model
3	Live Feature Demonstration	Show the notebook running and predicting flood risk
4	Q&A Session	Answer evaluator questions and conclude the demo
